

Duerdens save 29% on overheads with RCRP

Duerdens of Southport saved 29% on their overheads by joining RCRP.

The Masterfit servicing site joined RCRP in January 2013 and made savings in three categories – merchant services (£336), stationery (£605, which was 33% off their annual bill) and waste management (£552) by switching to RCRP’s suppliers.

They also managed cost avoidance of £1,206 a year - £795 on their gas supply and £411 on their electricity.

All together, this adds up to cutting £2,699 a year off their overheads bill.

RCRP’s buying team have also looked into their commercial insurance and have told Duerdens they estimate using a new supplier could save £3,500 a year.

Financial Controller Mike Friend said: “We have been striving hard over several years to reduce our overheads to the lowest level possible.

“Just as we thought we had achieved our objective we

signed up to the RCRP and they have managed to reduce our costs further.

“Our account manager Andie Deane was extremely professional and conscientious with her in-depth analysis of our expenses, looking at every aspect of the business

“All of our negotiations were carried out in a very thorough and efficient manner and we were able to secure more substantial long term savings.”
